Henslee Insurance Agency, Inc.

One of the most important things to do after a natural disaster is to create an inventory of items that have been lost or damaged. An inventory list can help speed up the claims process and help prove certain losses. No one knows your home better than you do. It is imperative that you document your loss as specifically as possible.

Keep in mind...

- It's important that you inventory all of your personal items.
- Be sure you are valuing your items at current replacement cost and not what you remember you paid for them.
- Take photos and videos of damaged items and notes as you remember the items that have been lost.
